

## LAMINATE SKIRTINGS & PROFILES

It's the little details that make a big difference: The icing on the cake of home decoration that brings all of the design elements together harmoniously, provides the perfect final touch and makes your dream home come true.

# PEDROSS: TRADITION MEETS INNOVATION

Extraordinary personages are at the root of every successful company. The same holds true for PEDROSS: When the South Tyrolean **Master Carpenter Karl Pedross** set off on his own in 1956, he could have never imagined the rapid growth and development his company would experience. In making the full transition to all-natural skirting boards during the seventies his impeccable sense of business paved the way for lasting corporate growth.

Today, PEDROSS is the embodiment of uncompromising quality and unrivalled assortment in the area of flooring accessories. Under the leadership of **Martin Pedross** in second generation, this tradition of success is carried on with confidence, bringing the family company closer to the fulfilment of a great vision: Leader of innovation in the moulding and flooring accessory industry.

## OUR CERTIFICATIONS

## Naturally sustainable

Protecting the environment is something we take to heart. That's why our MDF laminate mouldings are distinguished by their minimal use of resources, while meeting strict European quality and ecological standards: We use low-emission support material in accordance with En 120 (Class E1) and rely on procedures that are 100% free of formaldehyde and solvents when adhering the surface decor. To complete the circle of sustainability, our production waste is re-processed into briquettes and all of our folders are printed on FSC®-certified paper.

# BEAUTY WITH INNER STRENGTH

Cost-effective, practical and extremely versatile – that's how building owners and flooring experts know our **laminate mouldings**. When taking a closer look, these seemingly discreet products reveal unexpected qualities:

The support material is a **medium density fibreboard**, also known as **MDF**. Despite being one of the newest, it is already one of the most commonly used wood-based panels worldwide. This is largely because it provides mechanical, technological and physical properties that are comparable to those of solid wood, but is manufactured with extremely efficient use of resources. High quality raw materials and state of the art pressing technologies ensure maximum stability and durability.

The **foil coating** provides the robust core with an individual aesthetic exterior: The exceptionally wide range of laminate and highly resistant décor foils offers something for every style of interior design.

# TECHNICAL DATA

## >> SUPPORT MATERIAL

Our laminate mouldings are based on the support material MDF (medium Density Fiberboard) in accordance with the standard E1 and EN120.

## >> ADHESIVE

- Hot-melt adhesive with excellent bonding
- Guaranteed free of formaldehyde and solvents
- Fully eco-friendly.

## >> SKIRTING BOARD DECOR FOILS

- Large selection of high-quality laminate decor foils, with the right match for any laminate floor
- Highly resistant to cleaning agents and chemicals.

## >> FLOORING PROFILE DECOR FOILS

- Extremely low emission rates in accordance with E1
- Highly resistant to cleaning agents and chemicals
- Highly resistant to scratches and wear.
- Highly abrasion-proof with the Pedross Sapphire coating (AC3 certificate).

## A VENERABLE TALENT

MDF laminate mouldings bring the highest demands for quality together with an environmentally friendly production process that ensures the effective use of resources and provides good quality that is affordable for everyone. They ensure:

- high stability and durability
- unlimited design options
- easy care and maintenance

Wood embodies true harmony: As the ultimate symbol of nature, wood demonstrates its superb versatility time and time again by creating ever new, exciting and yet balanced synergy with other materials.

## Decor foil books

Largest selection of decor foils. Quick and easy matching with your flooring. With our decor foil books for mouldings and the flooring profiles, all of our original decor foils will always be within your reach. The great advantage of Pedross decor foil books is that you will never have to worry about colour differences between the decor you choose and the decor you receive, as it is often the case with conventional sample books. Pedross foil books contain original foils rather than copy images. The foils in the book are also available in the minimum size of **65 x 240 mm**. Find out for yourself just how quick and easy finding the right foil can be for you.

**One thing is certain:  
the abrasion resistance of our  
flooring profiles.**

High-quality basic materials and special surface treatments ensure that our flooring profiles do not lose their beauty even with extensive wear over many years. We guarantee the best possible robustness, scratch-resistance as well as shine and colour fastness of our products, which were tested and certified by independent institutes. The abrasion resistance of our flooring profiles was evaluated in strict tests and received the quality seal AC3 and AC5 from the renowned German development and test laboratory for wood technology - guaranteed quality you can rely on for life!

# FROM CLASSIC TO EXTRAVAGANT

We offer our high-grade, laminated wrapping foils in **over 250 standard decors**. They will provide – perfect for any laminate floor – the optical flair of hardwood in your home or serve as a practical, monochrome accompaniment to all other types of flooring and materials, according to your individual needs.

## Quality before quantity

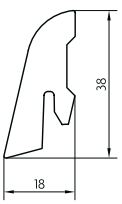

In order to ensure our customers the greatest possible degree of flexibility, minimum quantities are individually agreed upon with each customer according to their own needs. MDF laminate mouldings are available in standard lengths of 240 cm. Custom lengths are also available upon request.

# VARIETY IN FORM AND FUNCTION

PEDROSS MDF laminate mouldings are available in a variety of different profiles – from discrete and plain to bold and expressive floor mouldings, we offer the perfect match for all styles of interior design. We also provide reducers, T-mouldings and edge profiles for floors as well as stair profiles.

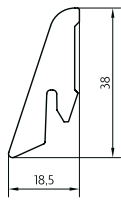

## FOR THE PERFECT ENDING

The end pieces as well as inner corner and outer corner pieces are made to fit PEDROSS board profiles 6003, 6019 and 6030, ensuring the perfect final results. These pre-shaped elements are simply placed onto the ends of the skirting boards – no mitre cut necessary. Many different design options are available: Plain, painted or printed with wood grain decors, colours made to match the standard wood tones available from PEDROSS.

# THE RIGHT MATCH

The sample books with original decor foils in moulding size make it easier to find the right foil design to match your flooring.

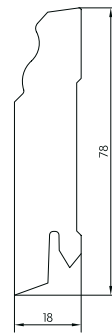

The differences in how light interacts with and is reflected by the material should be taken into consideration: Place the foil card at a right-angle to the floor – only then will the true colour effect reveal itself, enabling you to choose the perfect surface sample for your laminate moulding.

# CLIPSTAR

The world's only intelligent and invisible **fixing system** (patent number EP1866503) not only enables quick and easy mounting: It can be used on all conventional skirting board profiles (40-100 mm high and 14-22 mm thick), compensates for irregularities in the wall structure, hides unsightly cables and allows repeated mounting and removal of the boards without requiring any tools. This can make any handyman look like a true craftsman!

## Digital print

Thanks to modern digital print technology, custom orders are also possible with any imaginable decor design: Whether your own logos, photos or illustrations – the desired design will be applied 1:1 to your mouldings.

## DAZZLINGLY SHARP

The endless variety of motifs is complemented by a further, decisive advantage: Realistic and high-detail 3D appearance. Thanks to the state of the art, custom digital printing system, all motifs – photos, graphics, patterns and text – are available at a level of perfection never before seen. This results in extremely high-resolution, high-contrast patterns and photo motifs whose quality, brilliance, rich colours and astonishingly high-precision reproduction of details are sure to impress. Take a closer look and discover new aspects to your mouldings every day!

## Variety in numbers

PEDROSS offers you 100 real wood veneers, around 500 colours, ca. 250 Laminat-Deco-foils, more than 2.500 customer-specific digital-surfaces and as the first skirting producer worldwide digital print on real wood veneer - everything in order to find the perfect solution for your floor.

## Packaging & labelling

Every detail is accounted for, right down to the packaging and labelling: You choose whether your order should be delivered using an EAN code or ink lettering, wrapped with foil, packaged in foil, or in foil and corrugated paper.

## Product presentation

The modular POS systems provide our retailers with a striking product presentation at the point of sale.

Also available in personalised design upon request.

# PROFESSIONALISM AND PERFECTION

Your success is our duty. We have grown together with you and strive to improve your competitive edge every day. Because one thing is for sure: Your success is the foundation for our growth.

The PEDROSS guarantee:

- your own contact person
- consultation tailored to meet your needs
- worldwide delivery and suppliers specialised in skirting boards.

Do you have questions? Our team of consultants is available Monday to Friday from 8am to 6pm (GMT+1) at Tel. +39 0473 722 200.
